Chubb safes policy is one of constant improvement. We reserve the right to alter any part of the specification without any obligation.

## Locking Options

- All Chubb safes' locks are tested to conform with the requirements of EN1143-1.

Electronic Lock

Keylock

The Europlanet is secured as standard by a single double bitted keylock.

## Testing

A range of attack tools are used in the testing of Chubb safes. Europlanet products from basic tools to the sophisticated tools like oxy-acetylene and thermic lance.

## Finish

The Europlanet is finished in a quality light grey paint to suit most office environments.
